

EKIDZ BULLETIN

October 4th, 2020

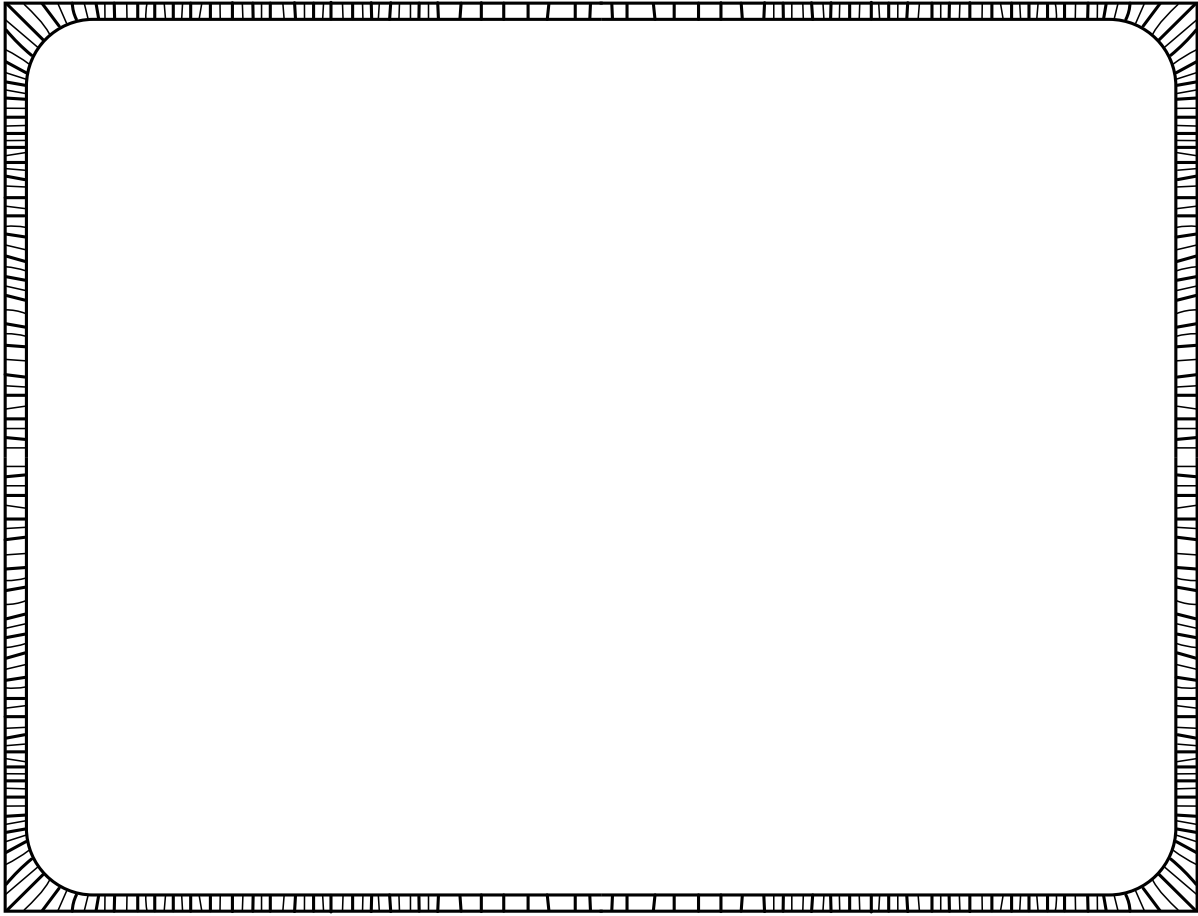

Write about a time when you were patient with someone else. How was it hard, and how was it good?

We are encouraged to be patient because Jesus will return and make everything new! What is difficult & what is exciting about waiting for this?

Patience is something we can show to the people in our lives. How might you be patient with your family? friends? classmates? others?

Draw a picture of the good things God is already doing: the things that help us stay strong as we wait for the New Creation!

Brainstorm some tips for being patient with others and then post this on your fridge
